Morrow Project Extreme Weather Survival Suit 5 (MP-XWSS-5)

Description: The MP Extreme Weather Survival Suit is designed for protection from extreme weather conditions and hostile attacks, and has a lifetime of several years of hard use. It has several camouflage designs, a sun visor, built-in radio, thermometer, Geiger Tab/M1 CBR kit, gas mask, and a repair kit. The suit is rather tight (only a thin air layer) so the operator can only wear skin-tight (or no) clothing and cannot carry extra internal equipment. Fortunately, the suit is not bulky and weighs less than 4 kg. The suit is well armoured against most small arms fire however the helmet/hood cover/visor have less protection.

MP-XWSS-5 Survival Suit Attributes (14 MP)

Structural Sub-Attributes	Other Sub-Attributes	Equipment Defects	Derived Values
Armor Level 1 (4 MP)	Accessories Level 3 (sun visor, radio, camouflage designs, thermometer, NBC detector, 1 gas mask; 3 MP)	Mutual Damage (2 MBP) Reduced Capacity (1 MBP) Partial Armour (1 MBP)	Armour: 10
Extra Endurance Level 5 (5 MP)	Life Support Level 2 (2 MP) Regeneration Level 1 (4 MP)
